

### Interview Summary Attachment

Discussed Soviet Union and Japan 684.

As to Soviet Union, applicant's representative argued that the wear indicator is a projection or the wear indicator is a projection in a recess. Examiner disagreed. In examiner's opinion, the wear indicator in Soviet Union is a projection or the wear indicator is a recess.

Examiner provided applicant's representative a copy of an English translation of Soviet Union. Examiner directed attention to page 3 lines 1-3 and page 4 claims 2 and 4 of the translation for Soviet Union.

Applicant's representative also disagreed with examiner's position that the perimeter shapes of the Soviet Union wear indicator are applicable to the perimeter shapes of the Japan 684 wear indicator.
